

SUBACT - DRUMTRONIX

Pulsating electronics and intensive live drums

BAND

Felix Melchior and Martin Grellmann started their musical journeys on different planets in the late 90s.

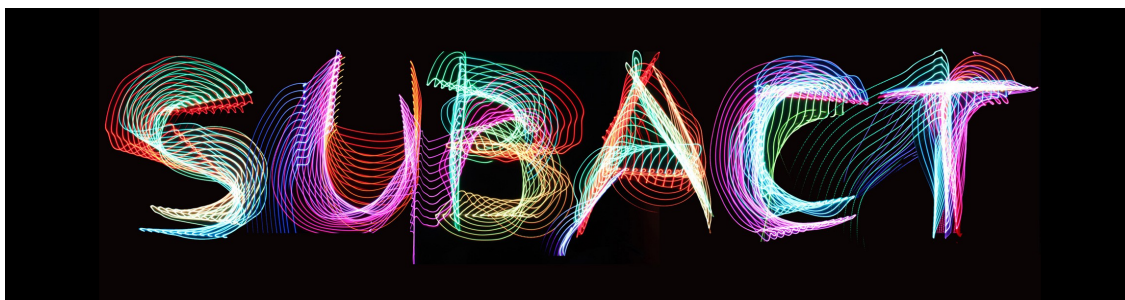

Felix began collecting records and became a DJ shortly before buying his first drum machine. Addicted to the sounds, he collected more and more electronic equipment over the years and started his first live projects in Dresden's underground scene.

Martin has been playing drums since he was five, grew up with punk and developed a deep love for drum and bass alongside his own indie bands. He also started DJing.

In the early 2000s, he finally met Felix at a Dresden commune, where the two soon began working on their music together. They founded the DJ crew Ghost Entertainment, had their own radio show and played together for years in the legendary Marracash Orchestra.

They influence each other with their different musical styles and skills: from drum and bass to psychedelic rock, metal, breakcore, techno, dub and everything in between.

Now it's all coming together: SUBACT is the essence of their personal growth and musical friendship.

MUSIC

SUBACT. A rough mix! From the heart to the soul and straight to the dance floor. Pulsating electronics interfere with intense live drums. Sometimes dark and surreal, sometimes twisted and psychedelic. Sometimes driving techno, sometimes trap, electro, bass music. Even the dub says Hello and passes by with a nasty smile. But the drums always drive forward! From deep down, SUBACT takes you far forward! Deep rave? SUBACT!

NEW ALBUM: LANDS

A new SUBACT album sees the light of day. LANDS leads the listener into deep, acoustic worlds of sound.

With driving analog drums, psychedelic electronic pads and messages from the infinite expanses.

Recorded in the Goon Studios in Linz, Upper Austria, by Mario Stadler, the sound man behind Electro Guzzi. There are five new tracks and one old acquaintance. Take a deep dive and let yourself drift.

RELEASES

Dubsquad EP (2017)
The Outside World LP (2019)
Life - EP (2021)
Lands - LP (2024)
